Updated March 23, 2020

Dear Friends, Neighbors, and Fellow Layton City Residents,

Here is today’s update:

COVID-19

Starting March 24, 2020, with the exception of Utility Services, all City Departments will conduct business on-line, by telephone, or by appointment only.

As you are aware, this weekend experienced a marked increase in the number of confirmed cases of this virus. Based on that we want to further emphasize the following of the recommendations from the health professionals. Experience has shown compliance with the National, State and Davis County Health Department’s Public Health Orders is effective in slowing the spread of this virus.

In support of these recommendations, we have been recommending that our citizens conduct their business with the City either on-line or over the telephone. With this continued increase of confirmed cases, it has been determined to take additional precautions to prevent this spread. Starting tomorrow, Tuesday, March 24, all City departments will be conducting business on-line, by telephone or by appointment only. The one exception will be our Utility Services Division, which handles the water, garbage, and other City utility services, along with the attendant billings and payments. We request your cooperation, understanding, and patience as we take these measured steps.

Let’s stay with the basics of washing our hands often and for the full twenty seconds; observe the social distancing of six feet; and staying home when feeling ill. Please remain vigilant.

If you would like to monitor the most current information, please go to the Utah Department of Health’s website, https://health.utah.gov. This site contains a link to the Center for Disease Control for those that would like to view the national information.

Your efforts in complying with the guidelines and regulations is greatly appreciated.

Respectfully yours,

Mayor Joy Petro
Councilmember Zach Bloxham
Councilmember Tom Day
Councilmember Dawn Fitzpatrick
Councilmember Clint Morris
Councilmember Dave Thomas
