Dear Friends, Neighbors, and Fellow Layton City Residents,

Here is today’s update:

COVID-19

Other than last weekend, and up until today, Utah has averaged about 50 new confirmed cases each day. In the last 24 hours the State saw an increase of 78 cases, with one additional death. Davis County now has 50 confirmed cases. As you heard today at the Governor’s news conference, it is important that we are more disciplined in following the guidelines from our health professionals. Let’s get that number to stop increasing as fast as we can. (To read the Governor’s Directive in its entirety, click [here](#).)

Please understand that because of the delays in COVID-19 test results, and the incubation period for this virus, those numbers will continue to climb for the next few days. But if we increase our efforts, starting now, we will see a change in the direction of those numbers in the coming weeks. Please start now to be more vigilant in your compliance with the directives given by our health professionals.

Our State leaders are meeting at least daily with a large group of health professionals and other advisors. We support these efforts and encourage you to stay updated and compliant with those objectives set out by the Governor, as we all have a common goal – to get through this quickly. We are confident in our strength as a community. Let’s continue with that in mind.

Thank you again for your compliance with the current public health orders. Stay Safe, Stay Home!

Respectfully yours,

Mayor Joy Petro
Councilmember Zach Bloxham
Councilmember Tom Day
Councilmember Dawn Fitzpatrick
Councilmember Clint Morris
Councilmember Dave Thomas
